## ***Have you seen this software?***

Of course you haven't. Nobody has, it seems.

I bought a rather dusty computer off a yard sale early last year. On it was this weird encyclopedia thingy. Copied it to my day-to-day laptop and somehow this 20+ years old (?) software still runs fine.

Asked around and sounds like it never took off. Couldn't find any clue on the internet either.

Well, if you're equally intrigued (or just want to prove me wrong), why not stop by virtually and take a look?

Here's how: [LINK]
